Dear Parents

**Re: PHYSICAL EDUCATION – WEARING OF JEWELLERY**

I am writing to remind you of the Health and Safety Regulations regarding Physical Education and the wearing of jewellery, In particular, earrings, and to update our records for your child.

As jewellery may not be worn during Physical Education Lessons, one of the following courses of action must be followed:

1. The child will remove and be responsible for the safe keeping of all earrings. All staff are forbidden to remove jewellery and/or accept responsibility for safe keeping.
2. Parents remove jewellery on days when a child has Physical Education Lessons.

Complications arise when children come to School wearing jewellery that they cannot remove themselves. When this happens, the child concerned has to miss out on a lesson, which could easily be avoided if one of the actions above were carried out.

If a child is unable to remove earrings after having ears pierced then parents should sign a consent form accepting responsibility for this (form available from the office). Please return this to school if necessary.

After discussions with the Health and Safety Officer, it has been clarified that wearing plasters over the earrings is unacceptable and therefore this practice will not continue.

I hope this letter clarifies the school policy on earrings and helps us to eradicate any problems with your child.

Yours sincerely

S Buczkiewicz
