<b>Prime Learning Challenge</b>	How do seasons change? (Science - seasonal change) What do I know about the UK and where I live? (Geography)	

<b>Past</b> What do pupils already know/understand? Do they have any misconceptions?	<b>Present</b> What do pupils want to know/understand? What are they interested in? What motivates them?	<b>Context</b> How is this challenge relevant to the needs of your children?
<p>In FS2 the children have learned about the natural world around them.</p> <p>A few children have travelled to different parts of the UK, but not many Children have heard or England, Scotland, Wales and Northern Ireland, but don't know much about them.</p>	<p>Children are fascinated by the trees and how they change during the seasons and how this affects the behaviour of humans and animals.</p> <p>Children want to know what it is like in other parts of the country Children have seen different areas of the UK on TV and will link it to what they learn.</p>	<p>Children need to know the seasons and the months associated with each season. They need to know the affect it has on the humans and wildlife around them.</p> <p>Children need to know about the country in which they live, before they can have a full understanding of the wider world. Children need to know their address and where they live.</p>

<b>By the end of this prime learning challenge...</b>	<b>Some: More Able</b>	<p>Children will be able to say the seasons in order and the months associated with each season. They will be able to explain why we have different seasons related to the position of the sun and the rotation of the Earth. They will be able to explain what the weather is like in autumn and winter and how this affects humans and wildlife. Including migration and hibernation.</p> <p>Children will be able to name the 4 nations that make up the UK. Children will be able to say their address. Children will be able to identify the difference between towns, cities and villages.</p>
