

Year 3 News

Welcome back after the Easter holiday; well done for all the hard work and effort last term. Also, thank you to all the parents who attended parents' evening. We have another busy final term of the year as we enter the Summer term!

Maths

This half-term, we will be working on fractions and mass and capacity. Please encourage your child to keep learning their times tables at home as much as possible.

Reading

Please encourage your child to read at home regularly! Please remember to sign your child's homework diary when they have read. When they finish reading a book, they need to do a quiz on the book to see how much they have understood what they read. Please ask your child about what they are reading! Children reading to an adult at home will then be able to progress around our reading challenge. Eventually, they can choose a free book from Mrs Dainty. We have already had lots of children receive books from Mrs Dainty so keep it up!

Summer 1, 2026

Literacy

This half term, our Literacy will be based around the book 'The Night Gardener' which links with our Science topic about plants.

Homework

Homework challenges will be set for each half term, where children can complete tasks of their choosing. The children are also encouraged to spend time on Spelling Shed, Reading Plus and TTRS each week.

PE

This half-term, the children will be taking part in Tennis on Wednesdays and Tag Rugby on Fridays. Please make sure your child comes to school wearing their PE kit on these days. Children who wear earrings will need to remove these themselves or bring in their own tape to cover them. Thank you.

Topic

We have a new History topic this term: 'How have our homes changed over time?'

Children will be looking into kitchens of the past and how technology has changed the way we live.

Science

This half term, our topic is: 'What part do different parts of plants play in helping them grow healthily?' Children will be investigating which conditions are most favourable to plants as well as the different parts and functions of a plant and flower.

Class Webpages

You can find more information about these topics and support for spelling, reading and homework on our class webpage.

Diary Dates

Wednesday 29th April—Science Wow Day.

Monday 4th May—Bank Holiday School Closed

22nd May—School Closes for half term.

As always, thank you so much for your continued support.

Miss Mills, Mrs Howell and Mr Slee
