

# Gurdeep Geography

Gurdeep loves anything to do with Geography - maps, pictures, the weather, natural places and man made sites. He would like you to know there are two different types of Geography which are human and physical.

Gurdeep wants to encourage you to use words that describe different things in connection with Geography - continents, capital cities, names of rivers, seas, mountains, and to be able to describe the weather in different areas of the world and some features of different places.
